ABOUT ME

I am currently a Computer Science student who has experience 3 internships so far. I will be doing 2 more internships before graduating Spring 2028. I have experience working with TypeScript, C#, SQL, Git, and Agile/Scrum. I am currently seeking full time employment opportunities. This web page was made for Web Application Programming and Hacking.

PROJECTS

Box Cat's Kingdom

Business Professionals of America Competition, 13th Nationally 2023

Box Cat's Kingdom is a a tower defense game with the elements of an arcade game. You play as Box Cat who assists in either making money or defending from monsters while you place towers to defend from monsters.
